#### Measure Your World!

In the past few decades, many students and citizen scientists have attempted to replicate the technique introduced by Eratosthenes to determine the circumference of the Earth. Around 240 BC, using trigonometry and knowledge of the angle of elevation of the Sun at noon in Alexandria and in Syene, he calculated the size of the Earth. Windows to the Universe, Educared and CREA are working together to engage school children from the United States, Chile, and Mexico to collaborate together and use the Eratosthenes method to **Measure Your World!**

Join us this September 29 - October 7, 2007 as students from the United States, Chile, and Mexico partner together to Measure Your World! [Registration](#) is open from August 13th - September 14th!

This is a project by, University Corporation for Atmospheric Research

Just click the banner above to visit the Measure Your World web site to get started.

Have a web space to help? use the following HTML codes to place banners on your site! All Banners open in new tab / window

#### For a 468 X 60 Banners

```
<A HREF="http://www.measureyourworld.org/index.html" TARGET="_blank"><IMG SRC="http://www.sflorg.com/images/ads/myw_banner.jpg"></A />
```

#### For a 728 X 90 Leaderboard Banner

```
<A HREF="http://www.measureyourworld.org/index.html" TARGET="_blank"><IMG SRC="http://www.sflorg.com/images/ads/myw_banner1.jpg"></A />
```

This is a great event! Deadline is coming up quickly, so join now!

UCAR and Scientific Frontline would like to thank you in advance for your help.
